

Objective

Highly motivated Mern Developer having **2 years of experience**. Targeting assignments as **JavaScript, React & Mern Developer**

Core Competencies

- Full Stack Development
- Software Development
- Troubleshooting & Debugging
- ReactJS Development
- Frontend Development
- Backend Development

Education

MERN stack web development Masai school Computer Engineering (Bangalore) **2022**

B.com. Specialized in (computer application) Utkal university **2019**

IT Skills

- ReactJS
- HTML
- CSS
- Javascript
- MongoDB
- NodeJS ExpressJS
- VueJS
- Redux
- Vuex
- Material-UI & Tailwind
- Responsive design
- Sass
- Vuetify
- NextJS
- GraphQL
- Cypress
- Jest
- RestAPI
- Git
- Postman
- Typescript
- Bootstrap
- Agile
- GraphQL
- NextJS

PROFILE SUMMARY

- Insightful knowledge of new technologies and their applicability in the practical world to meet the needs of a growing industry; coded, implemented and integrated complex software programs using technologies such as **MongoDB, Express.js, React.js**, and **Node.js** technologies
- Developing applications to generate automated regulatory reports for the management to enable effective decision making and the development of high performance, reliable and maintainable codes
- Insightful knowledge of building and supporting in **Material-UI & Tailwind, RestAPI & Bootstrap**
- Supported creation & maintenance of development, test & production environments with a goal of high availability, fault tolerance and scalability
- Working with front-end frameworks such as **React** to build complex web applications, writing clean, maintainable, and reusable code & Initiated in code reviews and provided feedback to other developers
- Monitoring pre-production acceptance testing to ensure high quality of a company's services & products
- Competent in confirming program objectives & specifications by testing new programs, comparing them with established standards, and making modifications; successfully worked with projects of various lengths & complexity and attained proficiency in **testing & debugging**; consistently delivered high quality of work
- Automated operational processes as needed, with accuracy and in compliance with requirements and specifying, documenting and developing new product features

WORK EXPERIENCE

ZF India Pvt.Ltd. Hyderabad

React.js developer

Febuary 2022 - June 2023

Key Result Areas:

- Developing & implementing **UI** component using **ReactJS, Tailwind CSS, Material-UI** and **Redux-toolkit**
- Monitoring & maintaining program modules including operational support, problem resolution, production support, preventative and corrective maintenance and enhancement
- Loading, transforming, coding & reviewing large sets of semi structured data, completing unit testing and bug fixing of assignments required
- Collaborating with **back-end** developers to integrate front-end code with server-side logic & Testing web applications for cross-browser compatibility and web accessibility
- Creating business requirements, source to target mapping, data models, and universe designs in order to assist in the development of highly efficient and scalable business intelligence solutions
- Reducing code redundancy and implementing re-usable functionality
- Integrating **GraphQL APIs** and **REST apis** to the client-side and utilized cytoscape JS to visualize graph
- Designing and developin g**REST apis** using **Node JS** and **Express JS**
- Participating in agile development methodologies to meet project deadlines and deliverable

Achievements

- Ranked in top 3 on project hackathon
- Secured 1st rank and received a reward from Odisha government

INDUSTRIAL TRAINING EXPERIENCE

Masai School, Bangalore

MERN developer

June 2021 – Feb 2022

Key Result Areas

- Created Complex web apps and developed using **MERN stack technologies** maintained a start-up mentality and supported a high capacity for learning, which over time led to a **50%** rise in productivity
- Designed and developed REST apis using Express JS and MongoDB,
- Implemented UI principle for improving overall user experience.
- Used third-party APIs and RESTful APIs to implement various functions built user interfaces using front-end frameworks like **ReactJS, Redux**
- Used JSON web tokens to implement user authentication and authorization
- Configured **cypress and jest** for unit and end-to-end testing

PERSONAL PROJECTS

Porter

Porter is India's largest marketplace for intra-city logistics, porter enables companies and users to book minitrucks online and track the movement of their goods across the city it allows user to move goods from one place to another city

Key Result Areas

- Implemented onboarding page
- Developed the login and signup
- Applied carbon footprint calculations
- Added homepage
- Implemented topic interest
- Developed the payment page
- Designed user schema and REST API

Tech Stack : ReactJS| Redux | Tailwind | Material-UI | ExpressJS | MongoDB

Project Location - github.com/stockchandu/Project-Porter-v2

Nordstrom

Nordstrom is an American luxury department store chain. and evolved into a full-line retailer with departments for clothing, footwear, handbags, jewelry, accessories, cosmetics, and fragrances

Key Result Areas:

- Developed the signup
- Implemented homepage
- Added product filter
- Improved & Developed the payment page
- Designed user schema and REST API

Tech Stack : React js | Express | MongoDB

Project Location - github.com/stockchandu/Project-Nordstrom

Ecogenic

A web application of calculating the carbon footprint, collaborating with UI designer

Key Result Areas:

- Implemented onboarding page
- Developed the login and signup
- Implemented calculation of carbon footprint
- Added homepage
- Implemented topic interest
- Developed the payment page
- Designed user schema and REST API

Tech Stack : ReactJS| Redux | CSS | Material-UI | ExpressJS | MongoDB

Project Location - github.com/stockchandu/Project-Ecogenic

Student Management

A web application to manage students

Key Result Areas:

- Implemented Admin login and signup
- Added student
- Add contest
- Updated profile
- Designed Contest filter
- Implemented Pagination
- Added Student sorting
- Designed REST API

Tech Stack : ReactJS | Redux | CSS | Material-UI | ExpressJS | MongoDB

Project location - <https://github.com/stockchandu/student-management>

CERTIFICATES

Mern stack web development - Masai school 2022

drive.google.com/file/d/1c6DXNUHiiYksuV0592DqPDsbqYEBEc3-/view

Certified Vue developer 2022

drive.google.com/file/d/1pQKCIb4qTB3ZjCBLWaD1wSGarQRl2ip/view

PERSONAL DETAILS

Date of Birth: 17th May, 1998
Languages Known: English, Hindi & Odia
Address: Hyderabad, India
